

Nemanja Antonijevic

Frontend Developer

I'm a certified frontend developer. I'm currently looking for a business opportunity. My prominent skills are knowledge of JavaScript and TypeScript and libraries such as React and Next.js, in addition to trying to write easily maintainable, clean, and tested code. In addition, I learn and solve problems quickly, which makes me useful in a team environment.

EXPERIENCES

Freelance Frontend Developer

- I was freelancing on Fiverr and Upwork platforms
- I gained experience in building modern web applications with the latest frontend technologies.
- I've gained experience in communicating with clients.

Personal Projects

- Working on personal projects, I have gained experience in creating modern and scalable web applications
- I gained the experience to turn visions and plans into reality.
- I've learned to solve problems quickly and find solutions.
